

9. (Original) A method according to claim 6, where said hygroscopic material of said coating absorbs water from ambient air and allows evaporation of said water thereby dissipating heat from said roofs or walls.

10. (Original) A method according to any of claims 6 to 9, where said coating is manufactured in the form of a paint applicable to at least a portion of at least one of the roofs and walls of a structure chosen from the group consisting of buildings, housings, and other shelters, including offices, silos, warehouses, industrial facilities, ducts, tanks, cold rooms, air cooling equipment, concrete and metallic surfaces.

#### REMARKS

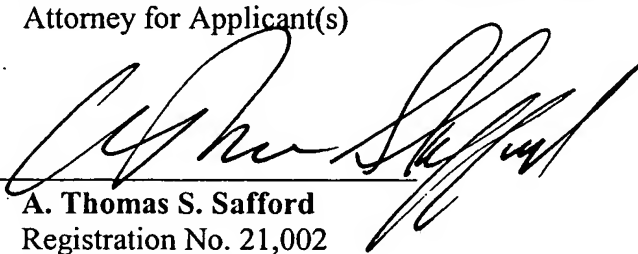

Claims 1-5 having been allowed in the latest Official Action, and claim 6 having been made dependent upon claim 1 as suggested by the Examiner in the 5<sup>th</sup> paragraph of page 2 (to render these also allowable), it is understood that this application is now in condition for the immediate allowance of all pending claims 1-10.

Accordingly, in view of the foregoing, withdrawal of all restriction requirements and issuance of a formal Notice of Allowance requested.

Respectfully submitted,

**FROMMER LAWRENCE & HAUG LLP**  
Attorney for Applicant(s)
